The beginning of a new school year is one of my favorite times of the year. I hope you were able to enjoy opportunities for fun and learning with your children this summer. As we begin this new school year, I am filled with hope, vision, and excitement.

This year has brought many new district employees to St. Edmond Catholic school. They have been working hard to learn our system and get to know each of you.

Thank you for making the "Back to School Bash" a

huge success. I apologize for running out of ice cream sundaes. We gave out 750 sundaes! I look forward to seeing that same support at the rest of the St. Edmond activities in the upcoming weeks and months.

We will work every day to teach your children new things and challenge them with interesting questions. I wish you a year filled with great success and great learning!

Welcome to the 2017-18 school year. GO GAELS!
